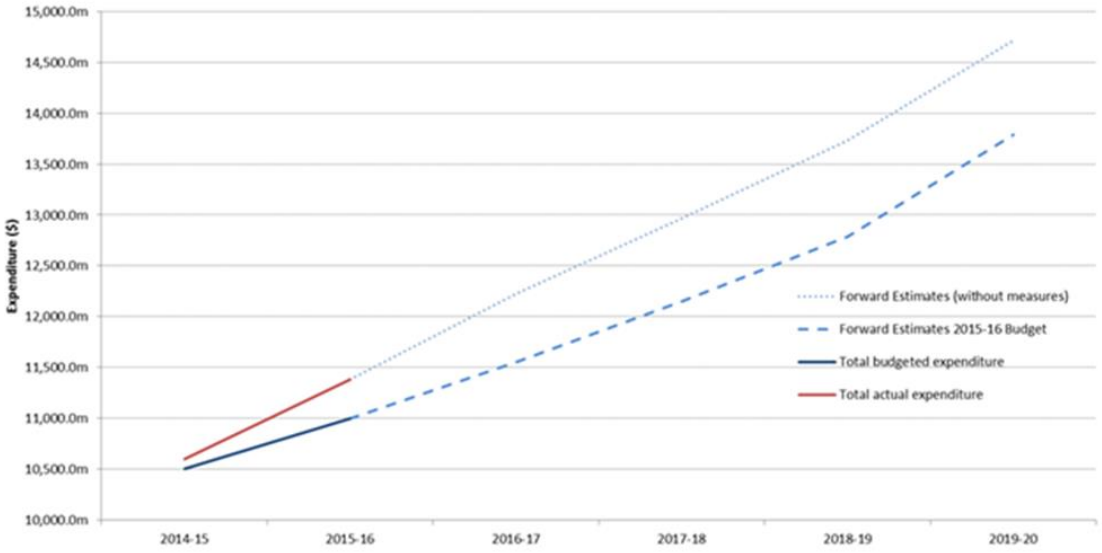
More information/background

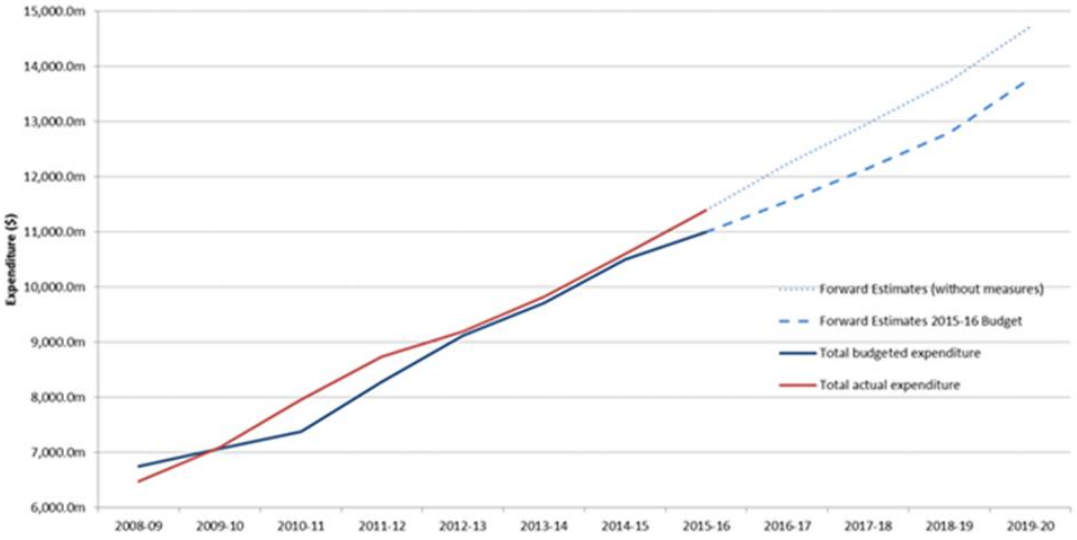
One-in-eight and one-in-nine ACFI claims were judged to be incorrect nationally in 2014-15.

Despite MYEFO's impending increase in scrutiny, incorrect claims have only continued to increase.

2015-16 is now on track to see one-in-seven ACFI claims judged incorrect (over-claimed) and therefore downgraded to reflect a more appropriate claim level.

Forwards – projections for ACFI with and without action





Longer-term since introduction of ACFI – including Labor's temporary cut to address ACFI blowouts during their time in Government
